

BEAUTY AS PASSION

AR
CHI
LOGO

Archilogo was founded more than twenty years ago in Monza, the heart of Brianza, and is specialized in the planning and realization of interior design of private houses, combining a contemporary style with high quality furniture selected among the best suppliers and made in Italy brands.

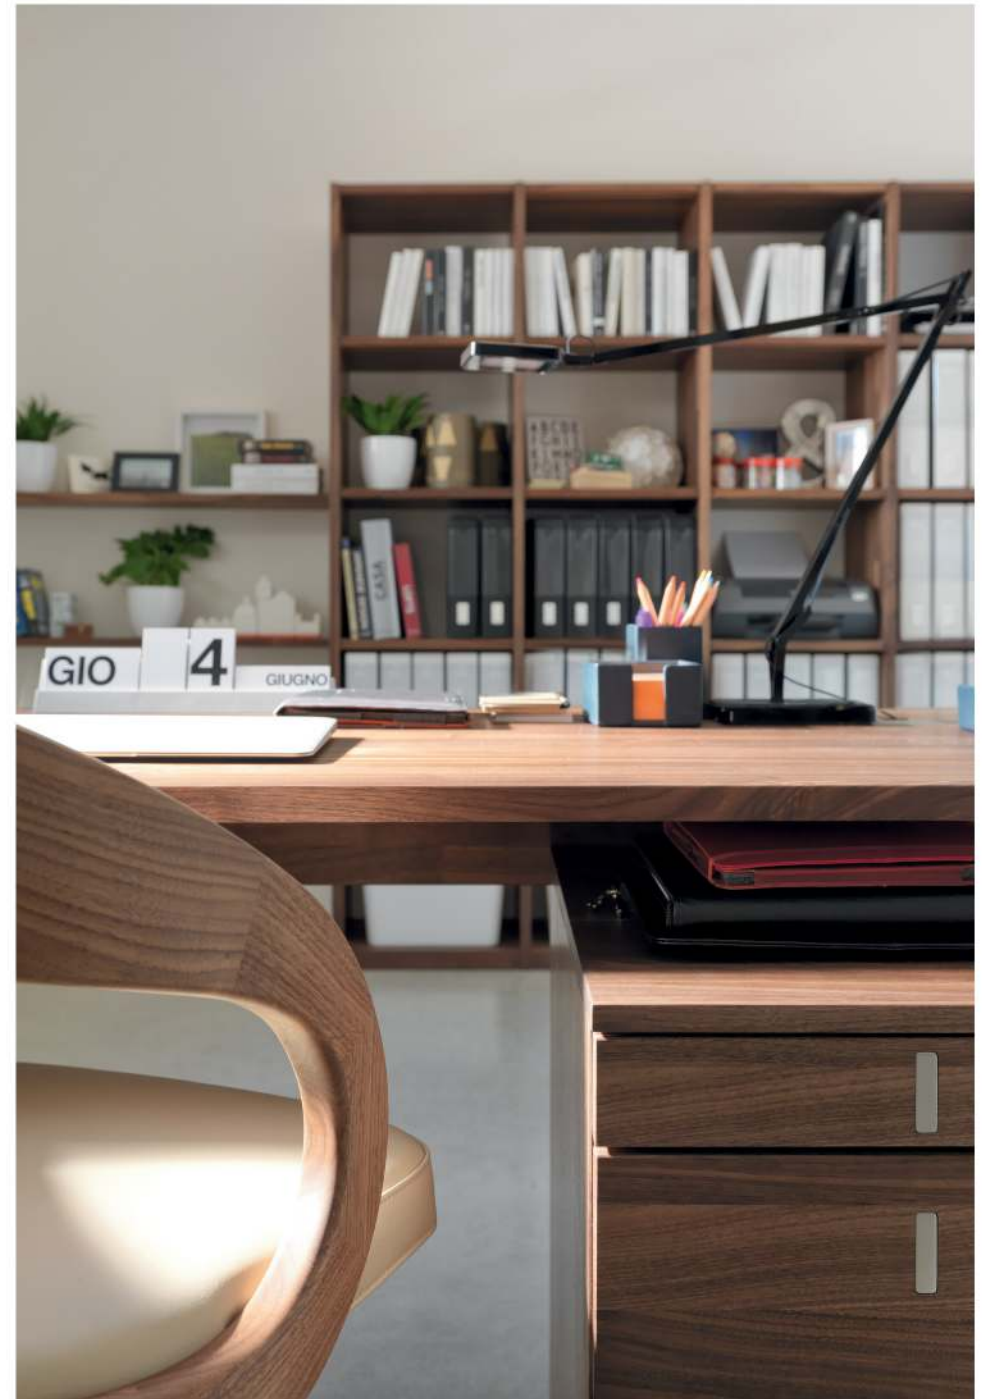

In 2001 it assumed its current structure, which is focused on:

- design: from the concept to the executive design and its realization, thanks to the great experience of its collaborators, extending the intervention area from private to public spaces (offices, shops and so on)
- a complete service to the client: from the development of the project, site and workers organization, to the actual realization (construction company, hydraulic and electric systems, plasterers and decorators), right up to the supply and installation of furniture and accessories
- receiving the client in our impressive showroom and creating a close interpersonal relationship in order to listen to and understand their needs and fulfill all their requirements
- always keeping ourselves up-to-date with all the new trends, living fully the dynamic design world of Milan
- a proposal which is centered on the budget, thanks to a thorough knowledge of the brands and of the real time manufacturing situation, both in Italy and especially in Brianza
- offering various possibilities of customization and personalization of the product

Besides its showroom (which is also the headquarters of the entire activity), Archilogo currently also has its own storage, carpentry and shipping warehouses, located nearby.

Our great experience in the field allows us to easily face the most demanding requirements both on the project and in the supply of furniture.

Our specialized team is ready for any intervention, whether in Italy or abroad.

urban lifestyle

noble simplicity and timeless grandeur

romantic wooden spaces

modern essence of historical spaces

make history comfortable

venetian contamination

bright luxury

luxury's human dimension

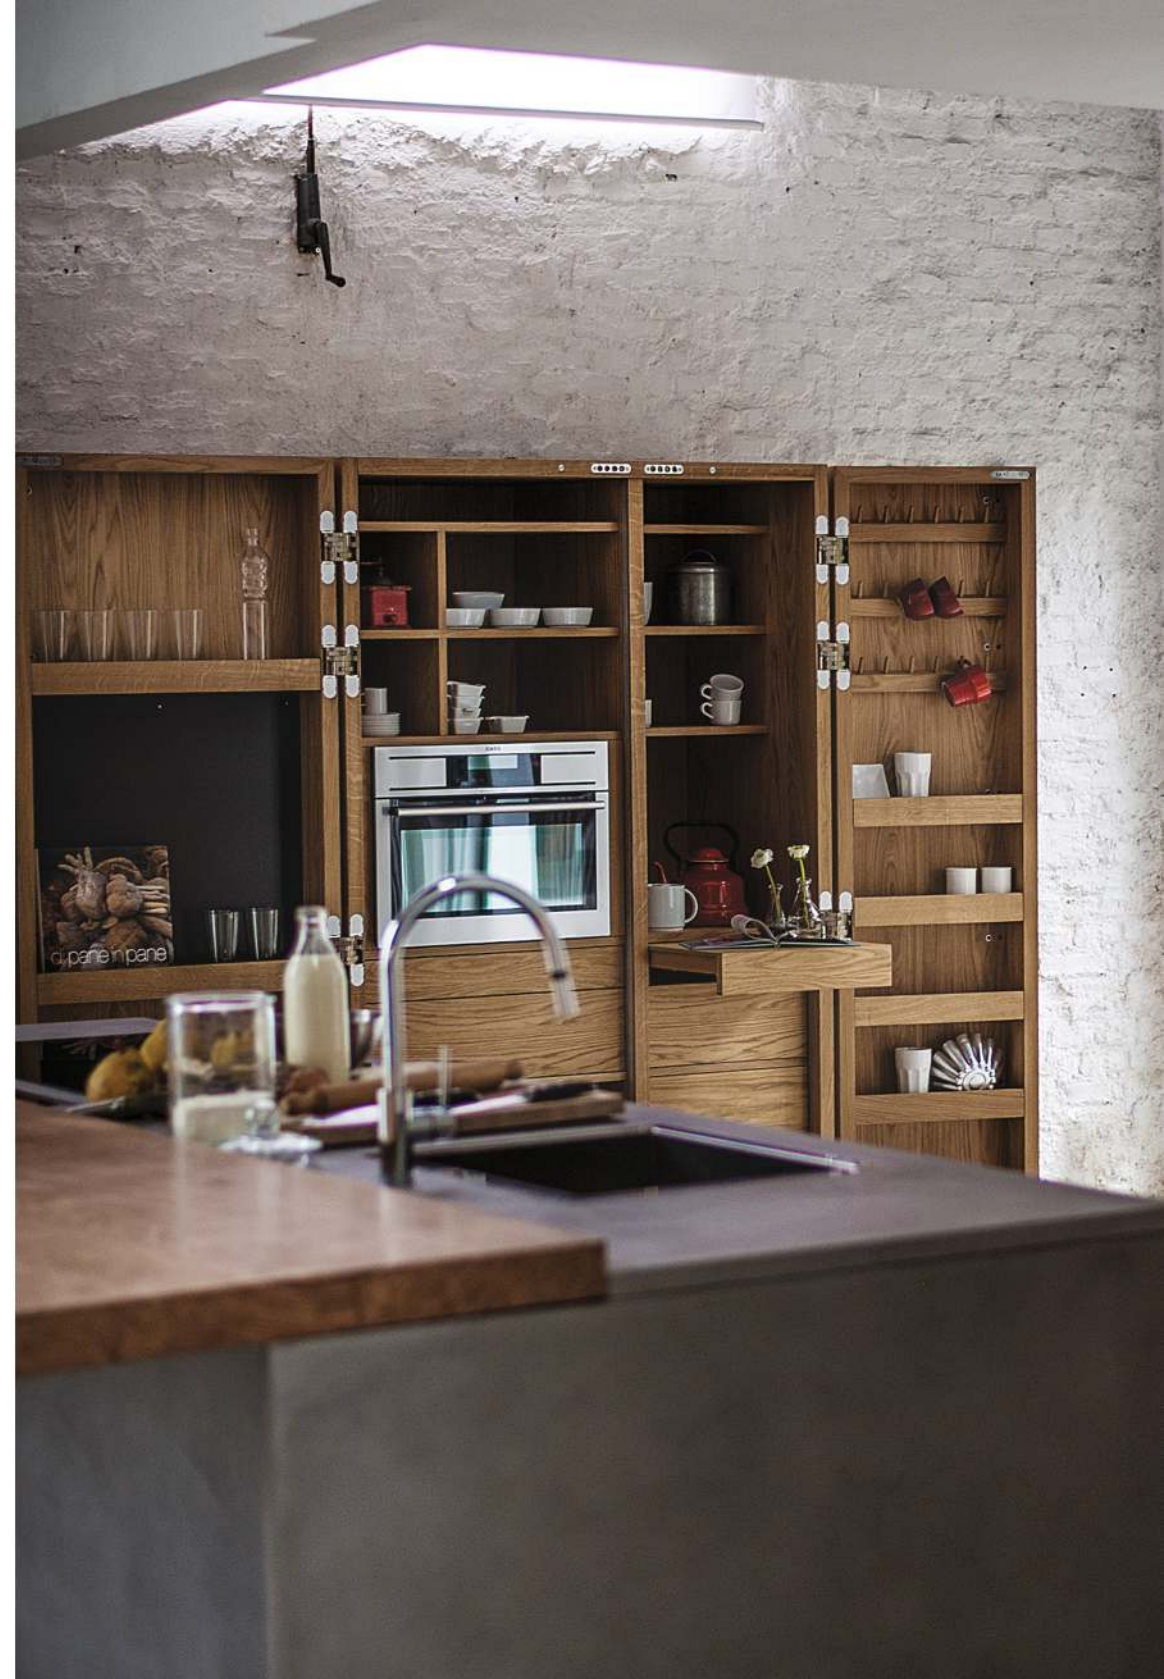

elegance of minimal

real wellness
dwells in nature

queen of the house

convivial spaces

atmosphere from the
tuscanian countryside

archetypal wooden forms
